## EDUCATION

- Bachelor's Degree in Civil Engineering, **Faculty of Engineering, Alexandria University** 📅 Oct 2017 – Aug 2022
- Diploma in FRONTEND Development, **ROUTE** 📅 Jun 2022 – Dec 2022

## EXPERIENCE

Full Time Frontend Engineer, **Motajer App** 📅 Mar 2024 – Present

- Worked on Motajer's **ERP** and **CRM systems**, contributing to modules for **inventory management**, accounting workflows, and **appointment scheduling** to streamline internal operations.
- **Designed** and **implemented** responsive, accessible user interfaces using **React.js**, **Next.js**, **TypeScript**, **Tailwind CSS**, **Framer Motion**, and **Redux**, **driving** a **30%** increase in mobile engagement across all devices.
- **Collaborated** with cross-functional teams to deliver integrated, user-friendly tools, **enabling** merchants to set up online stores in minutes.
- **Achieved** a **100% SEO** score and **optimized** website performance, **reducing** load times and **enhancing** user engagement.
- **Developed** a robust **CMS** dashboard, **empowering** admins with comprehensive control over website content, structure, and user management

## SKILLS

- **Web Development:** HTML5, CSS3, SASS, Bootstrap, Tailwind, jQuery, Framer Motion
- **Frameworks:** React.js (2+ years), Next.js
- **Technologies:** SSR, JWT, Git/GitHub, Postman, Subabase
- **Languages:** JavaScript, TypeScript (2+ years)

## CERTIFICATION

- Front-End Diploma – **ROUTE Academy**
- Web Development Professional – **Udacity**

## PROJECTS

Elitebiznes 📅 Dec 2024

- Custom **CMS** Dashboard: Enables complete control over website content, sections, and pages through a secure, React-based interface with real-time **API** integrations.
- **SEO-Optimized (100%), High-Performance** Website: Built with server-side rendering.
- Technologies Used: **Next.js**, **TypeScript**, **Axios**, **React Slick**, **Framer Motion**.

Movie APP 📅 Dec 2022

- Developed a movie search and review application using **React.js**, **Bootstrap**, **Material UI** , Implemented user authentication and **authorization**, **search** functionality, and **pagination**

Course Player 📅 Dec 2022

- A modern, interactive course video player platform built with **React** and **TypeScript**. This platform provides an intuitive **interface** for students to watch and **track** their **progress**.

CRUD APP 📅 April 2025

- Employed **React**, **Css**, **Axios** to create an intuitive user experience
